

Suggested Online Learning Opportunities

Vanguard Classical School has created resources for students to utilize during the school closure that do not require technology. If you and your student decide to use technology our teachers have compiled a list of online resources that they have used. Please note that many of these resources are free or are offering free use during this time; however, not all of the resources listed are free. **VCS does not recommend that any family buy a resource as we have offered activities that can be done without the use of technology.** Again these are suggestions that families may choose to use but are in no way required.
